

Certificate IV in Work Health and Safety (BSB41419)

Qualification Overview

Who should attend? The Certificate IV in Work Health and Safety (BSB41419) is suitable for those working in a work health and safety role, for example, Work Health and Safety (WHS) Officers or WHS Advisors. They are expected to provide leadership and guidance to others with regard to WHS matters.

Delivery method Face-to-face, off-the-job facilitated learning, reinforced by a practical, work-based assignment completed after each workshop.

Course duration 15-days total duration spread over four separate modules.
There is no set timeframe for attending the modules. However, most students are comfortable undertaking the program over 12 – 18 months.

Course cost **Public workshops**
The fee for undertaking the Certificate IV in Work Health and Safety via public workshops is \$3,720 per person. The fee includes:

- 15-days face-to-face training delivery at TSA
- Morning tea and afternoon tea during course
- Comprehensive learner guides and assessments for each module
- Online access to all assessment materials

In-house workshops

Training Services Australia also delivers in-house workshops, tailored to meet specific client needs. The fee for these workshops is determined in light of the agreed service requirements. Please contact Training Services Australia for a quotation.

Course components

#	MODULE NAME	DURATION	COST
1	Research and apply WHS legislation	4-days	\$990
2	WHS communication and consultation	3-days	\$750
3	WHS management systems and contractor management	4-days	\$990
4	Risk management, hazardous chemicals and incident response	4-days	\$990
	TOTAL	15-days	\$3,720

Pre-requisites No qualifications or previous experience are necessary to participate in this program.

Currency This qualification was current at the time of publication of this document.

Currency information can be checked here: <https://training.gov.au/Training/Details/BSB41419>

Certificate IV in Work Health and Safety (BSB41419)

Qualification Overview

Language, literacy and numeracy (LLN) requirements

A relatively high level of reading and writing ability is required to complete the qualification. Students will need to demonstrate the ability to:

- gather, critically analyse and review information from a variety of sources
- read legislation, codes of practice and guidance notes, as well as organisational policies and procedures relating to work health and safety
- communicate information via emails, reports and forms
- present issues in meetings and manage the discussion effectively
- use numeracy skills to analyse survey results

Students are also required to have reasonable computer skills (as typically required by WHS practitioners) to send emails, word process correspondence and short reports, and research information on the internet.

Those who struggle with reading or writing, or who are unable to use computers, are cautioned against enrolling this qualification unless they also organise appropriate literacy support.

For further advice about the language, literacy, numeracy and technology skills needed to complete this qualification, and avenues for LLN support, contact a TSA Training Advisor.

Access to a practice environment

Those undertaking the Certificate IV in Work Health and Safety are expected to have access to a work environment in which they are able to practise and apply the competencies covered during the course.

Training Services Australia is not generally able to organise work placements for students, although we will try to assist where possible. For more information, please contact a TSA Training Advisor before enrolling in the qualification.

Students would also benefit from access to a person in the workplace who is able to support and mentor them as they progress through the qualification.

Resources required

Those undertaking this qualification will require access to:

- a computer, a printer and the internet
- technology to make video and sound recordings (e.g., mobile phone)
- their organisation's work health and safety policies, procedures, forms and associated documentation
- people they can involve in work health and safety activities, including surveys, inspections, risk assessments, safety training / briefings, etc
- a supervisor / manager who can observe / review their work and provide feedback to Training Services Australia

Certificate IV in Work Health and Safety (BSB41419)

Qualification Overview

Special needs Training Services Australia will endeavour to assist those with special needs to successfully complete this qualification. However, we request that students with special needs contact us, before enrolling in the qualification, to discuss their needs. This will help us to provide advice about the suitability of the qualification and to discuss adjustments that could be made to improve the students' learning experience.

Qualification Packaging Rules

To obtain the BSB41419 Certificate IV in Work Health and Safety, students must complete **10 units** made up of:

- 5 core units
- 3 'Group A' elective units from the list provided
- 2 elective units from the list of 'Group A' or 'Group B' elective units, or imported from elsewhere in accordance with the packaging rules

For the complete Qualification Packaging Rules, refer to <https://training.gov.au/Training/Details/BSB41419> or contact Training Services Australia.

Units Selected for Delivery

Training Services Australia has selected the following units for delivery as part of its public program.

MODULE 1 – RESEARCH AND APPLY WHS LEGISLATION – 4-DAY WORKSHOP		
1	BSBWHS412 – Assist with workplace compliance with WHS laws	Core unit
2	BSBINS411 – Analyse and present research information	Group A elective unit
3	BSBWRT311 – Write simple documents	Imported elective unit
MODULE 2 – WHS COMMUNICATION AND CONSULTATION – 3-DAY WORKSHOP		
4	BSBWHS413 – Contribute to implementation and maintenance of WHS consultation and participation processes	Core unit
5	BSBCMM411 – Make presentations	Imported elective unit
MODULE 3 – WHS MANAGEMENT SYSTEMS AND CONTRACTOR MANAGEMENT – 4-DAY WORKSHOP		
6	BSBWHS415 – Contribute to implementing WHS management systems	Core unit
7	BSBWHS418 – Assist with managing WHS compliance of contractors	Core unit
MODULE 4 – RISK MANAGEMENT, HAZARDOUS CHEMICALS AND INCIDENT RESPONSE – 4-DAY WORKSHOP		
8	BSBWHS414 – Contribute to WHS risk management	Core unit
9	BSBWHS431 – Develop processes and procedures for controlling hazardous chemicals in the workplace	Group A elective unit
10	BSBWHS416 – Contribute to workplace incident response	Group A elective unit

Certificate IV in Work Health and Safety (BSB41419)

Qualification Overview

Assessment requirements

The Certificate IV in Work Health and Safety is a competency-based qualification. This means that in order to attain the qualification, students need to do more than just attend the training. They also need to provide evidence that they have understood the training and applied it in the workplace.

This requirement means that it is not possible to complete all of the assessment requirements during the face-to-face training.

Note: As part of the process of checking students' understanding during the training, and to help balance the assessment workload, TSA provides students with opportunities to generate some evidence for assessment during the face-to-face training.

Assessment methods

Students are required to complete a set of assessment tasks for each module they undertake. Satisfactory completion of all assessment tasks is required before a credential can be awarded. Examples of the evidence typically requested from students as part of their assessment tasks include:

- Answers to knowledge-based questions and questions demonstrating students' application of the required knowledge
- Completion of case studies
- Descriptions by students of how they have responded to various scenarios in the workplace
- Completion of workplace-based tasks / projects which require students to apply the relevant competencies in the workplace
- Third party reports from students' supervisors

Assessment timeframes

The timeframe for completing the assessment for each module is four months. That is, students have four months after attending the training for Module 1 to submit the assessment for Module 1; four months after attending the training for Module 2 to submit the assessment for Module 2, and so on.

Students are encouraged to prioritise completion of their assessments ahead of attending further training, and should space their attendance at each module so that assessments do not build up.

Extensions to assessment timeframes

Training Services Australia recognises that work and family pressures can make it challenging for some students to complete their assessments within the designated completion timeframes. Consequently, we provide extensions of up to 3 months where a formal request is received. Additional extensions are sometimes allowed in exceptional circumstances.

TSA does not generally grant extensions of more than 6 months from the original due date of the assessment. Students whose assessments are more than 6 months overdue and who still wish to complete their course may be required to re-attend the course or obtain one-on-one coaching to refresh their knowledge of the course content. Additional fees apply in these situations.

Certificate IV in Work Health and Safety (BSB41419)

Qualification Overview

Resources provided

Training Services Australia provides students with the following resources for each module:

- Participant manual and file
- Assessment document

Electronic copies of the assessment document and other useful resources are made available to students through TSA's website.

Support provided

Training Services Australia provides email and telephone support to students throughout the program.

Additional one-on-one coaching is also available, at an hourly rate, for those who need it. Information about costs associated with coaching is available on the TSA website.

Credential issued

Students who successfully complete all requirements for a full credential will be issued with a nationally recognised qualification: BSB41419 Certificate IV in Work Health and Safety.

Those who complete one or more units of competency, but who are unable or not wishing to complete the entire qualification, will be issued with a nationally recognised statement of attainment for the unit(s) they successfully complete.

Recognition of Prior Learning

Recognition of Prior Learning (RPL) is available for this qualification.

RPL is suitable for those already have the necessary skills and knowledge in one or more of the units which make up the Certificate IV in Work Health and Safety, and do not wish to undergo further training in these units.

RPL is a way of shortcutting the training process. It is **not** a way of shortcutting the assessment process. To be granted RPL, students must provide evidence of their competence to a TSA assessor. Evidence requirements may vary, depending on the unit(s) of competency being assessed. However, they typically include answers to theory questions, work samples and supervisor reports. Students must also participate in an assessment interview with a TSA assessor, and in some cases the assessor may wish to observe students' performance in the workplace.

Those who are considering seeking RPL, are invited to speak with a TSA Training Advisor. The Training Advisor will make an initial assessment of the student's suitability for RPL and discuss the RPL process in detail before sending an application kit.

TSA's RPL policy and some general information about the RPL process and the costs associated with RPL are available in the Policies and Procedures area of our website.

Certificate IV in Work Health and Safety (BSB41419)

Qualification Overview

National recognition

Training Services Australia recognises qualifications and statements of attainment issued by other Registered Training Organisations under the Australian Qualifications Framework.

Students who have already achieved some of the units covered by the course may be able to obtain a reduction in training or assessment requirements, and should contact a TSA Training Advisor for advice.

Before recognition can be granted, a TSA representative will need to sight the statement(s) of attainment for any units for which recognition is being sought and / or your USI transcript.

For further information, refer to TSA's policy for National Recognition which is available from the Policies and Procedures area of our website.

Advice for completing the qualification successfully

Training Services Australia offers the following advice to students to help them complete this qualification successfully:

- If your employer is sending you on the course, find out why you have been selected to attend the training, and how your role will change (if at all) after you have completed the training.
- Approach the training with an open mind. Demonstrate a willingness to learn, as well as to share the benefits of your experience with others.
- Find a mentor who can support and guide you as you undertake the training. This could be your supervisor or someone from your organisation's WHS department. We recommend that you set aside time to discuss your progress with them on a regular basis.
- After attending each course, discuss with your mentor or supervisor how the training content and the assessment requirements relate to your workplace.
- Try to align the assessment activities with your work requirements. In this way, you will be completing your assessments at the same time as you go about your day-to-day work.
- Set aside regular time to work on your assessment activities. This could be at work, at home, or a combination of the two. As a rough guide, plan to set aside 2 – 4 hours per week for the duration of the program to work on your assessments.
- If possible, negotiate with your employer for them to provide you with time at work to work on your assessments.
- Refer back to the information contained in your Learner Guides as you undertake your assessments.
- If the assessment requirements of some unit(s) do not align well with your workplace, be prepared to work with your supervisor / mentor to identify opportunities for completing the assessments. For example, they may be able to assign you a special project or alternative duties to help satisfy assessment requirements.
- Speak with your mentor or contact TSA if you get stuck or become confused about any part of your assessment.

Students are strongly encouraged to show their supervisor / employer this course outline, as well as the "Information for supervisors and employers" document which can be found here:

<https://www.tsa-wa.com.au/tsa/files/courses/BSB41419-Information-for-supervisors-and-employers.pdf>
